- **Text** *Linear Algebra with Applications (fifth edition)* by Otto Bretscher

- **Grading**

Quiz total	20 %
Homework	20 %
Midterm Exsm (late October)	30 %
Final Exam	30 %

- **Quiz Day** Friday is quiz day. The material from the homework assignment due the previous week may appear on the quiz, or the content of the quiz might be specifically addressed during a lecture. The lowest quiz grade will be dropped.
- **Homework** Homework will be assigned and usually collected on Wednesday. I ask that the grader give you two grades: one that reflects the accuracy of your solutions and the apparent effort, and a second that measures the quality of exposition. You are encouraged to use a typesetting engine such as LaTeX to prepare your homework assignments.
- **Office Hours** My official office hours are Tuesday from 2 - 4 pm and Friday from 11-12 am. My unofficial office hours are *whenever I am around!* Take advantage of them!
